Bologna, 09 settembre 2004

Prot. 94/CE/SS/ml

**RE: Project 'Intelligent Nanocomposite for Bone Tissue Repair and Regeneration'**

Concerning the activity of IOR unit within the project 'Intelligent Nanocomposite for Bone Tissue Repair and Regeneration' - NanoBioCom - coordinated by prof. I. Alava and J.M. Jurado, Fundación INASMET, San Sebastian, Spain - (proposal N° STRP 516943)

*it is herewith declared that*

the study protocol concerning the use of human bone-derived cells presented by dr. Gabriela Ciapetti - Laboratorio di Fisiopatologia degli Impianti Ortopedici - Istituto Rizzoli will be examined by the Ethical Committee of the Istituto Rizzoli on the 22nd September 2004. Considering the documents presented, there is a real chance the study protocol is approved without any opposition by the components of the Committee.

Regards

Dr. Sergio Strazzari  
Presidente Comitato Etico IOR
